

Has Your Property Been Flooded?

Experiencing a flood in your home or business premises is an appalling experience. This Christmas, sadly many people experienced this first-hand when continued wet weather and the arrival of Storm Bella inundated many towns and villages.

Thousands of people were evacuated by the Emergency Services and people in communities across Northamptonshire, Cambridgeshire, Oxfordshire, Bedfordshire and Buckinghamshire are now dealing with the after-effects.

Help Is Available

A number of free resources are available that provide support and guidance to those who have been flooded and are looking for help. Visit the following links for more information:

Homeowners Guide to Flood Resilience

Written by leading flood resilience experts, Mary Dhonau OBE and Carly Rose, the Guide provides advice on what you should do immediately following a flood, and what can be done to mitigate against future flood risks.

Talking From Experience

We have interviewed people from across the country that have experienced flooding in their own homes and businesses. These videos show what property resilience steps they have taken – and the results they have seen since.
